- Of which amount of revenues generated from auctioning of allowances pursuant to Article 10 of Directive 2003/87/EC: 7408.855
- Of which amount of revenues generated from auctioning of allowances pursuant to Article 3d(1) or (2) of Directive 2003/87/EC: 37.69

**Total amount of auctioning revenues generated or the equivalent in financial value committed in years before 2014 and not disbursed in the years before the year 2014 and carried-over for disbursement in the year 2014:** 0

**Explanation on methodology used for currency exchange for the information provided in tables 1 to 5.**

Currency used is Euro.

Please provide the definitions used for 'commitment' and 'disbursement' as part of their report. Consistent definitions should be used across the tables.

**Commitment** - revenues generated from auctioning of allowances are planned and preliminary committed based on the state budget strategy.

**Disbursement** - revenues that are transferred to specific Ministry or State Agency for specific purpose.

Notes:

(1) An average annual exchange rate for the year 2014 or the real exchange rate applied to the amount disbursed is to be used for the currency conversion.

| **Grant for promoting use of renewable energy and modernisation of heating systems** | The aim of this grant is to promote replacement of liquid fuel boilers with heaters (e.g. boilers, heat pumps, solar collectors) using renewable energy sources. The grant is applicable for permanently inhabited detached houses, semi-detached houses and terraced houses that have a use and occupancy permit and that are heated using fuel oil. Grant is given for purchasing and installation of a heater. It also applies for design in case the heater is installed with this grant. The amount of the grant is up to 40% and maximum 4000 euros per applicant. | 3200 | Disbursed | No Yes | • Development of renewable energies to meet the commitment of the Union to using 20% renewable energies by 2020  
• Development of technologies that help meet the commitment of the Union to increase energy efficiency by 20% by 2020  
• Other reduction of greenhouse gas emissions | • Financial support policy | Ministry of Economic Affairs and Communications |

Eventual explanation on allocation decisions.

Notes:
(1) An average annual exchange rate for the year 2014 or the real exchange rate applied to the amount disbursed is to be used for the currency conversion.
(2) Member States are to provide the definitions used for ‘commitment’ and ‘disbursement’ as part of their report. If a specific use fits into several rows, two separate rows should be used. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts. Consistent definitions should be used across the tables.
(3) Categories mentioned in paragraph 4 of Article 3d and paragraph 3 of Article 10 of Directive 2003/87/EC as follows:
- funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms
- development of renewable energies to meet the commitment of the Union to using 20% renewable energies by 2020
- development of other technologies contributing to the transition to a safe and sustainable low-carbon economy
- development of technologies that help meet the commitment of the Union to increase energy efficiency by 20% by 2030
- forestry sequestration in the Union
- energy from waste
- energy efficiency
- greenhouse gas abatement
- increase in renewable sources of energy
- adaptation to the impacts of climate change
- saving of greenhouse gas emissions
- coverage of administrative expenses of the management of the ETS scheme
- other reduction of greenhouse gas emissions
- energy efficiency and insolation
- climate friendly agricultural practices
- efficiency of initiatives related to the programme 'Climate Friendly Agriculture'
- cross-sectoral initiatives in EU-27
- adaptation to the impacts of climate change
- protection and preservation of nature
- other relevant initiatives

Table 4: Use of revenues from auctioning of allowances to support developing countries through multilateral channels pursuant to Article 3d and 10 of Directive 2003/87/EC (5)(8)

Notes:
(1) An average annual exchange rate for the year 2014 or the real exchange rate applied to the amount disbursed is to be used for the currency conversion.
(2) Member States are to provide the definitions used for ‘commitment’ and ‘disbursement’ as part of their report. If a specific use fits into several rows, two separate rows should be used. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts. Consistent definitions should be used across the tables.
(3) Member States are to avoid double counting of amounts in this table. If a specific use fits into several types of uses several types can be selected however the amount indicated is not to be multiplied but additional rows for types of uses are to be linked with an entry field for that amount.
(4) Several categories can be selected if several financial instruments are relevant for the reported programme or project.
(5) Information in this column is to be provided unless reporting is based on the equivalent in financial value of those revenues.
(6) Categories mentioned in paragraph 4 of Article 3d and paragraph 3 of Article 10 of Directive 2003/87/EC as follows:
- funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms
- development of renewable energies to meet the commitment of the Union to using 20% renewable energies by 2020
- development of other technologies contributing to the transition to a safe and sustainable low-carbon economy
- development of technologies that help meet the commitment of the Union to increase energy efficiency by 20% by 2030
- forestry sequestration in the Union
- energy from waste
- energy efficiency
- greenhouse gas abatement
- increase in renewable sources of energy
- adaptation to the impacts of climate change
- energy efficiency and insolation
- climate friendly agricultural practices
- efficiency of initiatives related to the programme 'Climate Friendly Agriculture'
- cross-sectoral initiatives in EU-27
- adaptation to the impacts of climate change
- protection and preservation of nature
- other relevant initiatives

1) Afghanistan.
In 2012 Ministry of the Environment of Estonia made a contribution of 1 605 008 to the United Nations Environment Programme for ‘Strengthening Climate Change Adaptation in Rural Communities, for Agriculture and Environmental Management in Afghanistan’ within UNEP project ‘Environmental Cooperation for Peacebuilding-Phase III’ in 2012-2015. The project is building national capacity to plan for community resilience to climate change based threats in Afghanistan. Focus is on sustainable water, pasture and environmental management in pilot sites and strengthening communities in Kabul province, the North and Central Highlands of Afghanistan. Core activities involve working with national government planners, advisors and decision makers to strengthen planning and action for community resilience in vulnerable areas of the country where high potential exists for productive, financially sustainable, ecologically sound agricultural development. The project was extended in the end of 2014 with additional funding were Estonia’s contribution was 323 000 EUR.

2) Small Island Developing States of the Pacific.
Estonia contributed 100 000 EUR to the project ‘Implementing the Climate Change Adaptation Component of the Satellite Communications Capacity, and Emergency Communications Solutions Project for the Small Island Developing States of the Pacific” carried out in cooperation with the International Telecommunication Union (ITU).

Notes:
(1) Information on the status is to be provided, where available at disaggregate level. Member States should provide the definitions used for 'commitment' and 'disbursement' as part of their report. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.
(2) Several applicable sectors can be selected. Member States may report sectoral distribution if such information is available. 'Information not available' can only be selected if there is absolutely no information available for the respective row.
(3) Only financial support provided which is climate-specific as e.g. indicated by CDC DAC indicators should be entered in this table.
(4) An average annual exchange rate for the year 2014 or the real exchange rate applied to the amount disbursed is to be used for the currency conversion.
(5) Member States are to avoid double counting of amounts in this table. If a specific use fits into several rows, the most appropriate one is to be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary.
(6) The appropriate financial instrument is to be chosen. Several categories can be selected if several financial instruments are relevant for the respective row. Mostly grants are provided to multilateral institutions and other categories may not frequently be applicable. However, more categories are used to achieve consistency with reporting requirements for biennial reports under the UNFCCC. 'Information not available' can only be selected if there is absolutely no information available for the respective row.
(7) To be reported if such information is available for multilateral fund or banks. 'Information not available' can only be selected if there is absolutely no information available for the respective row.
(8) The notation key ‘information not available’ may be used if there is absolutely no information available for the respective cells.

Notes:
(1) Information on the status shall be provided at least in Table 3, and should be provided in this table, where available at disaggregate level. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.
(2) Only financial support provided which is climate-specific as e.g. indicated by OECD DAC indicators should be entered in this table.
(3) An average annual exchange rate for the year 2014 or the real exchange rate applied to the amount disbursed is to be used for the currency conversion.
(4) Member States are to avoid double counting of amounts in this table. If a specific use would fit into several rows, the most appropriate one are to be be chosen and the respective amount must be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary.
(5) The appropriate financial instrument is to be chosen. Several categories can be selected if several financial instruments are relevant for the respective row. "Information not available" can only be selected if there is absolutely no information available for the respective row.
(6) The notation key "information not available" may be used if there is absolutely no information available for the respective cells.
